Helene -

Attached are photos regarding the complaint of the owners of this home putting up ERUV wires. The complainant wants to know what Jackson Twp. has in place to prevent this. There are no Ordinances against this and as you will see in this case these are clearly on their property and quite frankly are not that noticeable. I welcome any input as we may begin to see this occur more often. As for this case I will notify the complainant that there is no violation. Based upon my earlier conversation she is blaming this on our lack of Codes and she will most likely be unhappy.

I am copying the Code Officers so all are familiar.

FOR OUR INFO:

An eruv ([?e'uv]; Hebrew: עירוב, "mixture", also transliterated as eiruv or erub, plural: erubin [?e'u'vin]) is a ritual enclosure that some Jewish communities, and especially Orthodox Jewish communities, construct in their neighborhoods as a way to permit Jewish residents or visitors to carry certain objects outside their own homes on Sabbath and Yom Kippur. An eruv accomplishes this by integrating a number of private and public properties into one larger private domain, thereby avoiding restrictions on carrying objects from the private to the public domain on Sabbath and holidays.

The eruv allows these religious Jews to, among other things, carry house keys, tissues, medicines, or babies with them, and use strollers and canes. The presence or absence of an eruv thus especially affects the lives of people with limited mobility and those responsible for taking care of babies and young children.

Council President,

To this date I have not been made aware of any Eruv wires on public right away. Code has been made aware to look out for any obstructions be they signs, above head wires, ropes, etc... Mr. Pieslak will be returning on Monday, July 11th. We can verify this with him on that day.

Respectfully,

Michael Reina

Chief,

While I know this was discussed at the Dept Head meeting, and is not a zoning issue, are you able to offer a black and white statute or code that will prohibit the eruv to cross over a public right of way?

Certainly anyone else copied may chime in as needed.

Thank you.

Thank you for calling me this morning. I just wanted to clarify one point. With regard to a Eruv on a residents property I understood from our conversation zoning will not get involved. With regard to combining two residents property's with one Eruv over the street again you stated zoning will not get involved but possibly the P.D. would. I am wondering if the Eruv is high enough that it wont affect traffic (etc.) what would be the problem or perhaps I misunderstood and there what not be any problem connecting two people directly across the street from each other.

Thank you, Mordy Burnstein

On Wed, Sep 14, 2016 at 9:14 AM, Jeff Purpuro <jpurpuro@jacksonwpnj.net> wrote:
Mr. Burnstein,

Per our conversation, and comments by the Twp attorney, New Jersey courts have held that "the guarantee of freedom of worship as set forth by our State Constitution forecloses any use by a municipal authority of it's zoning power to prohibit the free exercise of religious activity in the privacy of one's home"

So to paraphrase, zoning will not get involved, but if there are situations where parking or noise are an issue, the only municipal participation will come from the police (parking) or code enforcement (noise).

And the key to all of this, is that the dwelling(s) in question remain a single-family dwelling use.

Hope this helps.

Jeff -

While conducting an inspection this afternoon I noticed 5 properties across the street that have a connected Eruv wire from 23 California to 31 California inclusive. The wire is about 10' high and the poles have clearly been placed in the ROW on all 5 properties. 31 California starts off on their own property but then diagonally goes across the sidewalk to another pole in the ROW. The photo is taken from #23 looking down the street.

I thought there is a 25 Max per shul being allowed. Where that number comes from, I still have no idea? The fact that an Acting Shul is even allowed period, I still don't get! So with the two houses added up, that's 11 cars. That's just assuming one person per car. Say there are 2 people per car. That's already 22 people! Let's not forget about the 10 plus walkers!! I'm pretty sure that's goes over 25. I have pictures of 9 Harvest having 9 cars in front & 7 having 6 on other weekends.

I can't understand how two houses that are working side by side together do not deserve some kind of warning or violation? They have already asked surrounding neighbors to put up ERUV wires to attach house to house. How many more houses will be allowed to be used as active Houses of worship in a single family zoned homes? Unless you can explain to me the difference between Dual use home to a single family homes? Can single family homes have Dual uses? Im trying to understand.

Good afternoon:

I apologize for not getting back to you sooner but I was out sick and I am just getting caught up. For Friday evening on Harvest Ct. there were 6 vehicles in the driveway of 7 Harvest Ct. and 5 vehicles in the driveway at 9 Harvest Ct. One car was on the street and no noise in the area.

Also, 6 Meadow Run Ct. was monitored and there were 5 cars in the driveways there with no noise in the area.

There were also other areas monitored in the Township where there have been calls of concern. The numbers you see are the maximum numbers throughout the monitoring period. With this we are finding no violations at this time at any location. We will continue to monitor over time.

Good Afternoon,
Just wondering what was found on Harvest Ct. Any Violations?

Also, Another house listed today on Meadowrun Ct because of the Shul being used by the Rabbi.
Another great Jackson Family FORCED out! It's a sad day in Jackson.

Good Morning,

9 & 7 Harvest Ct has been an ongoing problem. It is getting out of hand now. It is obviously being used as a Shul. There are so many cars Friday and Saturday and So many people who walk there.

What is Jackson Township doing about this????

Mr. Mayor

I'm truly disgusted.

So since all houses are allowed to gather to worship every week, ALL YEAR ROUND!

And according to the Deal case, Zoning laws have no bearing it sounds like a lost cause! How many Shuls are going to be allowed on one street? How many are allowed in one neighborhood? Will there be a limit to how many houses in our town will be full acting Shuls? I think this should be public knowledge. If nothing will be done to stop it then please tell me how many will be allowed?

Why would anyone remain in this town when we are all sitting ducks to a religious take over? Give me one reason we should all not move right now, unless you think we should all live next door to a shul? Would you live next door to a shul?

Here is a recent article! Shuls are going to destroy our neighborhoods if something isn't done! Look how many neighborhoods already have them! Next ERUV wires until we are no longer Jackson but a sub-division of Lakewood!

On Feb 14, 2017, at 5:27 PM, Jennifer Cusanelli <termite027@aol.com> wrote:

I guess it's just a matter of time. At one time we were told "houses of worship cannot operate in a residential area". Not so. We were also told that "no one other than a family member can live in a single family home and pay rent" and now not is the case either. Multiple families can infact cohabit in a single family residence. This is all very disheartening because the writing is on the wall. We have no control over our residential neighborhoods. It's a free for all. And as far as I am concerned anything that we can do to slow down this process of our Town being turned into a huge religious enclave is automatically shot down by our so-called legal department. It seems to me that someone is going to need to get clever and figure out a way to preserve the quality of life in Jackson. Maybe the answer is to start with a new law firm specializes in land use matters not a law firm that is in the pocket of a radical religious community. Create your own case law! Why are our rights and freedoms are being compromised in favor of a religion? As an atheist I will not stand for religious wires to be put up in my community. And I don't appreciate public schools being rented out to house religious articles such as a Torah. Is there no such thing as a separation of church and state anymore. I have been fortunate enough to somehow get inside The Orthodox community and I could tell you that there is certainly a plan and that plan is to buy up as much as they possibly can and take Jackson. So if we don't get on the ball and figure out a way to slow it down legally then we are dead. I'm begging you all to please pull out the big guns and find our

town a proactive law firm or perhaps hire a land/use attorney on retainer to do what needs to be done to protect us. That being said I do appreciate the efforts that are being made by council such as the landlord registration the no knock and most recently the ordinance on dormitories. But we are dealing with a very shrewd group and a very organized operation when it comes to the Orthodox community. baby steps just aren't going to be enough. Respectfully, Jennifer Cusanelli

On Feb 14, 2017, at 4:06 PM, Kenneth Pieslak <kpieslak@jacksontwpnj.net> wrote:

The law is the law. To be specific as far as case law 'the standard of 25 was derived from the Farhi v. Commissioners of the Borough of Deal case, in that case the homeowner had a regular congregation of 15-25 congregants in his home on the Sabbath and other Holy Days. The court held that "the guarantee of freedom of worship as set forth by our State Constitution forecloses any use by a municipal authority of its zoning power to prohibit the free exercise of religious activity in the privacy of one's home." The Court stated that any concerns about noise, traffic and crowding could be addressed adequately by the police power dealing with parking, noise or health and not through zoning.'

As far as a corporation owned rental. This is still a residential rental and as such there is a maximum amount of people that can live full time based upon square footage. That does not prohibit you from having a large gathering or having more people spend the night 'occasionally'.

I would suggest a meeting for any further questions so this can be adequately answered and understood. There seems to be misunderstandings based upon language and many assumptions being made.

Subject: 9 Harvest ct

So just to get this straight! Any house in our town will be allowed to use their home as a "house of worship" as long as they are quiet? So, here we are again! It's all up to one's person's interpretation, one might not find 25 people to be a nuisance. When I find 25 people on a weekly basis to be an incredible nuisance and a negative effect on the quality of life. So who's interpretation do we go by. Having men sleeping over every Friday night is yes A form of Dormitory! They are being housed for religious purposes! This isn't having "company" or a family visit.

Let's not forget how we were told the "character of Jackson will be upheld" well this isn't what is happening here. This street on a Friday & Saturday looks like Lakewood. Multiple homes being used for religious purposes.

So basically our town will be doing nothing to stop these homes from becoming Shuls through out our entire town or is it just this side of Jackson, that is collateral damage. We are the older side of Jackson so I guess our neighborhoods don't matter.

Per your email- "I also believe that 'single family owner occupied homes' do not fall into the Code for maximum occupancy. Those restrictions apply to residential rentals and commercial properties.

Isn't this home listed below owned by a corporation? Isn't it a rental?

Where shall I begin. Poles being on public property for religious purposes, segregation, is there an issue with lightening considering they are right next to trees, are there any requirements as far as how high or the materials used or location? 244-156 addresses heights of various uses, but I cannot find anything in this section that could be used in this situation. Are you suggesting that the EPA or DEP? I'm suggesting if you have concerns relative to the environment, the New Jersey Department of Environmental Protection may be an avenue in which your environmental concerns may be directed. If this is all knew to you don't you think there needs to be regulations?! It's not a matter if I think regulations are needed, but rather if the Twp wants regulations for this Dept to enforce.

So the wires are surrounding Harmony Farms. I have a few questions. Are these wires on public property? Without seeing them, it's difficult to determine. Because when I put a sign on public property it was taken by township employees and "destroyed". How about the safety of them? I don't see that they would be a physical danger, nor an impediment to health and well being. Do they attract lightening? There is no covering over them. Are they safe for the environment? Perhaps one could reach out to the NJDEP. Attached is a list of contact numbers. And lastly why should I have to look at a religious structure of any kind on public property? As an atheist I am highly offended by this and I'm sure other atheists in town will also be. They are pushing. Testing the waters. We're permits requested or provided? If they are on private property, zoning approval is not required, and if on public property, zoning would not be involved. Another home listed today with a realtor. People are being pushed out and it's not longer a matter of telling your neighbors "don't sell". It's a matter of the walls closing in on residents. Would you want the home next to you to have 20 men and now woman and children frequenting it on a weekly basis? Respectfully, Jennifer Cusanelli

Ms. Cusanelli :

With your updated description location I was unable to locate this by driving on New Prospect. As a result I walked the entire walkway along Harmony Farms and I was able to locate one property (#95 Hickory Hill which backs to New Prospect))that had a pole installed at each corner of their rear property connected by a wire (photo attached). Without an official survey/engineer report it would appear that each pole is on the designated private property. This conclusion is based on the fact that the poles align with fence posts to an adjoining property and unless those fences were installed improperly, which does not appear to be the case, this is the private property of #95 Hickory Hill Road. This area joins up with Harmony Farms HOA property which is where the walkway is. In any event this is not 'public property' but at worse case scenario belongs to the Harmony Farms HOA, which becomes an issue between those parties. These poles/wires do not present any safety concerns as they are currently set. The poles are not easily visible from New Prospect, even with looking for them, without foliage and certainly can not be seen when foliage blooms so there is no eyesore issue with or without the foliage. Based upon my inspection I find no violation with regards to this issue in this case.

Ken,

As I see no further comments, if WE can determine who's property these poles are on, we'll notify the owner, where the owner can take the appropriate action, eh?

And in most, if not all, situations, it'll be on a County road or a Township road.

Helene,
Please run this by legal.

Relative the right-of-ways, our definition reads as follows; **"A strip of land occupied or intended to be occupied by a street, crosswalk, railroad, road, electric transmission line, gas pipeline, water main, sanitary or storm sewer line main or shade trees of for another special use or structure."**

Per this definition, can one install flagpoles, eruv wires, fencing, etc?

On Apr 20, 2017, at 10:14 AM, Jennifer Cusanelli <termite027@aol.com> wrote:

Dear Council members, There seems to be quite a few eruv poles with wires or ropes being put up on "the row" or "right of way" in Jackson neighborhoods occupied by Orthodox families. Apparently they are used to allow an extension of the area in which Orthodox families can travel on their days of prayer. As this may be of religious benefit to them it does nothing but create an eyesore and puts a label on the entire neighborhood. I have inquired with Ken from code and I am told that there is currently no ordinances on record regulating their placement. I respectfully request that this is addressed as soon as possible. If poles are going to be put up then perhaps they should be treated like signage and regulated as such. I have personally had signs removed from the "right of way" on my property and "destroyed" by township employees because "nothing is allowed on the right of way other than mailboxes and utility needs. If religious pole are going to be allowed then they should only be kept of private property and not be allowed to be placed on the right of way. Also if they are being installed in the ground should they not have to have surveys done as to prevent interference with under ground utilities? Or are they even safe as far as lightening or high winds are concerned? Please address this issue. A clear

precedent has already been set in regards
to the function of "the right of way".
Please consider amending it to include
that nothing other than what is already
permitted is to be put on "the row". Thank
You, Jennifer Cusanelli

Subject : White Road - Eruv installations

2 attachments

To : K. Pieslak <kpieslak@jacksontwpnj.net>**Cc :** Maria Tur (maria.tur@verizon.net) <maria.tur@verizon.net>

Hi! Mr. Pieslak,

It seems that I need to bring something to your attention. On my daily walk I noticed owners setting up eruvs on "right of way" by their homes on White Road. Is that allowed? These are rather flimsy metal poles (some 2 piece poles) with plywood attached to it. They even attached one of the eruv directly to the utility poles. I have attached a couple of photos.

In addition they have attached plywood pieces directly to utility poles between the three homes. This encompasses 3 or 4 homes in a row. New owners/tenants are really uninformed and need to be educated about township codes. Each new owner should really get a list of basic codes with their CO (just a suggestion).

Ms. Tur:

Thank you for passing along the information. We are in the process of notifying everyone who has something in the ROW, without the permission of the Township, to remove same. This may take a little time as we want to afford all the opportunity to voluntarily comply as it took some research for us to learn the technical definitions and interpretations. If you have any further concerns, please let me know.

Hi! Mr. Pieslak,

Thank you for response. I know the moving of the Eruv poles might take a while but I think removing the 2x4 pieces of plywood on the four properties should be expedited. There's nothing written on them but they are "marking" the properties and it is truly an eye sore. The township should remove them as they do with other sign/markers that is not allowed in the right of way. I also hope the Eruv poles will eventually be removed from the right of way.

Have a nice weekend!

Maria

This is an enquiry email via <http://www.jacksontwpnj.net/> from:
Steven Ullmer <smullmer@gmail.com>

I recently passed by California Dr and noticed an Eruv has been erected. While I have absolutely no objection to religious actions, I do take issue with the fact that the supporting poles were placed on the grass next to the street which is owned by the township. No one should have the right to build on public land while others cannot.

You know this could all blow all out of proportion. The issue to me is the eyesore of seeing poles all over the place next to sidewalks.

I really couldn't care less about the wires.

I understand the religious purpose.

Why not compromise before it gets ugly and just run a string around the whole darn Brookwood and make it one big Eruv? This way the streets will look neater, the Jewish community will be happy and I can continue not caring.

Just a thought.

Help regarding municipal consent letter for eruv

From : Dovid Ritter <dovidritter@gmail.com>

Fri, Jul 21, 2017 05:32 PM

Subject : Help regarding municipal consent letter for eruv**To :** kpieslak@jacksontwpnj.net

Dear Mr. Peislak,

As I am sure you know Jewish law forbids us from carrying outside on Saturday without using a "eruv". There are many different ways to build them, and after much research we have come to the conclusion that renting space from the utility companies is the best way forward. Firstly, this would greatly minimize the need for private eruvs which would help make it that there is no unnecessary tension with regard to this subject. The pipes are the ones already on the electric poles and would not be seen to the average person. In fact most people would not even know it exists. This seems to be the method most cities around the country utilize, and the reasons are obvious. In addition, this would greatly increase the quality of life of the over 500 Orthodox family's in Jackson. This would enable them to be able to bring their children, especially babies, outdoors on Saturday, take walks, and socialize with their neighbors. As a resident of Jackson I am asking for your help in getting the necessary municipal consent.

Your resident,
David Ritter

ERUV religious boundary wires in Harmony Farms

From : chrishope@optonline.net

Sat, Jul 22, 2017 06:53 AM

Subject : ERUV religious boundary wires in Harmony Farms**To :** Mayor Mike Reina <mikereina@jacksontwpnj.net>,
hschlegel@jacksontwpnj.net**Cc :** Rob Nixon <councilmannixon@jacksontwpnj.net>, Barry
<councilmancalogero@jacksontwpnj.net>, Kenneth Pieslak
<kpieslak@jacksontwpnj.net>, Jeff Purpuro <jpurpuro@jacksontwpnj.net>,
Jenn (TBJ) <termite027@aol.com>, Bressi
<councilmanbressi@jacksontwp.net>

Did you know that Harmony Farms had their annual HOA meeting and they were ambushed with a presentation- on how the Orthodox would like to construct an ERUV religious boundary throughout the entire neighborhood. They had a Company spokesperson who installs the poles & wires there to explain it all from Bergen County. PowerPoint slide show and all. It's insane! Just an example "two 18 ft poles on the entrance way". Can you imagine driving past Harmony farms with poles & wires labeling it as Orthodox owned & run? What is going to be done, they are 10 steps ahead of us. California Ave wires are still up on the ROW.

Shuls are popping up at every turn- the Orthodox from Harmony farms said they already receive permission to use JCPL utility poles - In our entire town?? I'm assuming you are aware of this? I thought Jean was drafting a letter to our utility pole owners- requesting no permission be given?? It seems people are more concerned about "the other side" getting upset about their basketball nets having to be moved!! But "this side" has religious wires and Shuls! I thought it was One town not Two separate sides!

As you are aware Jewish law requires in order to carry outside on Saturday for us to be in a Eruv. Many towns and cities around the world have such Eruvs and I would like to know if there was a way that we can be included in that list. Eruvs are no different then any other utility that goes on a pole. The same way we understand that optimum can put up their things I ask that you understand this to. Personally I do not understand how Optimum works but somehow without the things on the pole we wouldn't have service. So to a Eruv provides a service to us. While we may not understand it, it does. In true a Eruv is much safer then anything else as it does not conduct electricity or anything else and usually is made of plastic. Have you ever heard of a Eruv causing a fire?! Please help us with building a Eruv here in Jackson in order to increase our quality of life and that of our fellow residents.

It has been brought to my attention that there was a official request made of you and the administration to help us get municipal consent to build a eruv on the utility poles. This is a long and hard process that really can only move forward with your help. Eruvs on utility poles are done with the utility company's permission and are obviously up to their safety standards. These Eruvs are not a eyesore and a eruv is a "reasonable religious accommodation". Please help us move this forward in the right way.

I was informed by a fellow resident that a request was made for township consent for a community wide eruv. I hope you consider this and see all the good it will bring. While for the week that it is put up you may hear noise from our towns noise makers after a week people will realize that the eruv does not cause any harm to them or their property's. It is 100 % safe and not visible to the average eye. It will only increase the quality of life of so many residents and I kindly ask you to please consider this important project and its benefits. By acting now we can avoid all the unnecessary tension that some other towns have experience and together have a better and stronger Jackson.

The eruv has a significant and important role in the Orthodox Jewish community on the Sabbath and is often invisible to the eye. An eruv allows this community of faith to walk with a stroller to carry a young family to synagogue and handle similar tasks which would otherwise not be permitted on the Sabbath. We know that with an eruv, those who observe will have an increased quality of life in New Jersey.

During my time as a Councilman-at-Large in the City of Englewood, we took action; we supported the expansion of the eruv to embrace the majority of the city. Our governing body acted to keep our community inclusive, diverse, and accepting of who we are and how we pray.

The recent opposition to the construction of an eruv in Mahwah is troubling. Our great country, at a foundational level, was created to allow for religious freedoms.

These liberties are enshrined in the Bill of Rights and these freedoms are a cornerstone of our Constitution. We should not allow a municipal ordinance to veil Anti-Semitism and be used as a tool against a community of faith.

1. What constitutes leaving something in the ROW? Is it over night? sunset? a hour? The reading of the code is "WHATSOEVER" which should mean that any time frame is forbidden. That would mean that to roll a hoop down to the ROW for a ten minute game is FORBIDDEN. If that is true how will the town enforce that? If a game is a exception and they will allow that without a fine then a should be allowed to put my Eruv poles in the ROW on Friday and to take it down after Shabbos.
 2. Is there written permission from the township for a resident to leave his garbage in the ROW to be picked up?
 3. Is there written permission from the township to have a sprinkler system with sprinkler heads in the ROW?
 4. There are a couple of developments with lights in the ROW by the entrance to the development, which to my understanding was put there by the builder,,was permission granted?
 5. There are multiple flower structures and arrangements in the ROW throughout town..according to the code they should not be allowed

The Notices are being mailed out as they are completed. It would be a difficult task to attempt to hand deliver and speak to each resident once we looked at the numbers. As far as removing the poles and wires to end this enforcement action, I can not answer at this time. It is due to the increase in complaints regarding usage of the ROW that we have been directed to strictly enforce this.

Subject: Violation

Dear Ann Marie Eden,

I received a letter of violation for leaving my Eruv in the Row. In the code that was mentioned it stated that with permission from the Jackson committee I would be able to leave my Eruv there. How to obtain this permission? Is there a form to fill out? Please advice as the loss of my Eruv will only hurt my quality of life here in Jackson.

Sincerely, Isaac Neiman

There are 213 of them.

I have a spreadsheet with all of them attached. Let me know if you are able to print them out.

Robin,

Good morning. Attached please find an OPRA request, which I believe is overly broad ("violation notices issued since January 1, 2017 relative to Township Code 372-8").

I discussed this with Ken Pieslak, our Code Compliance Supervisor. He stated that there are at least 200+ NOV's, however, there is no way to retrieve the records without knowing the specific property (Block/Lot/address), as code violations are tied to specific properties.

Upon your review, please let me know. I'll advise Mr. Eisdorfer that his request overly broad and that he must provide a specific property (Block/Lot or address).

Thanks!

Chief,

For your information and review, below is an email I received today from Phil Stilton. The Mayor and I are quite concerned over the statement highlighted in red. I'm not sure if you are aware of this, however, it is a strong statement especially after the most recent events in Virginia. We have no knowledge, other than this email, of any planned actions. Please address as you deem necessary. Thank you.

Respectfully,

Helene Schlegel, MS, MPP, CPM

Helene,

Hi, I'm not sure if some of the original message was not read or maybe cut off, but here it is again, please reply. I also have some follow up questions.

Will political signs in the Public ROW be enforced?

How many complaints have been issued thus far in this most recent enforcement period aug 1 to present.

- A) Eruvs
- B) Basketball hoops
- C) Other

I have been told that the Eruvs will not be removed in a **show of civil disobedience to the township's enforcement**, can you comment on that?

How many official complaints have been filed with the township by the public since 1/1/17 regarding this matter.

- A) Number of Eruv Complaints
- B) Number of basketball hoop complaints

I was told there was also a request to remove ALL eruvs in Jackson in lieu of a public utility eruv using existing utility poles owned by JCP&L. Does the township intend to grant that request in order to remove the inherent need for Eruv service by portions of the Jackson community?

Thanks,
Phil

Can the township please issue a clarification on its position on this eruv and basketball hoops matter?

- Why are citations being issued for both.
- Can you explain the ordinance. What IS allowed and not allowed?
- Are rolling hoops allowed for any period of time.
- Some people feel there is a war going on between basketball hoops and eruv enforcement and the kids are getting stuck in the middle.
- What is the plan for the inherent need for eruvs by the orthodox population?
- Is everyone who has a hoop out getting fined? Certain areas?

Please elaborate.

Are you kidding me? Basketball Hoop is on my grass for 20 years...never in the street..never obstructed the street!!!#

Whose idea was it to send this letter? Have you seen it for 20 years? On my property where it has always been? Are you listening to my loud..polluting ..neighbors who obstruct traffic with their illegal landscaping business..quads..and ear deafening hot rods?
You need to come and look and I want an apology.

Ms. Sudbrink :

Your email was sent on Saturday, August 12th. I am just getting a chance to respond to my emails and phone messages, and yes, I have listened to your voicemails demanding an apology and your inquiry as to why no one answered the phone when you called on the 2 occasions this morning.

What you received was a Notice of Violation for having something, in this case a basketball hoop, in the Right-of-way. Due to an increase in complaints regarding the use of the Right-of-way we have been directed to strictly enforce this issue. As such we have, and continue to do area by area, issued these violations to everyone who has an object in the Right-of-way. Unfortunately, the fact that it has been there for 20 years does not change the violation. We have to date issued over 200 Notice of Violation for violations of the Right-of-way.

While you may think it is your private property, the Right-of-way belongs to Jackson Township and any use of it requires permission from the Township Council of Jackson Township. Every homeowner is required to maintain the Right-of-way area and many think as a result it is their own.

Should you have any further questions please feel free to call me.

Subject : Jackson Township: Basketball Hoop**To :** kpieslak@jacksontwpnj.net**Reply To :** Scott Reeves <ls4reeves@msn.com>

This is an enquiry email via <http://jacksontwpnj.net/> from:
Scott Reeves <ls4reeves@msn.com>

Mr. Pieslak, I was sent a notice that my basketball hoop is in violation. Its not in the street like the one in the photo and we don't have overhead wires. I'd like to send you a photograph to see if it is in violation. Its been there for about five years and no one has ever complained about it obstructing the roadway. I'd like to get this cleared up as soon as possible, so if you could send me your email address I will send you the photograph. Thanks

Scott Reeves

Mr. Reeves :

Due to a recent increase in complaints regarding the use of the right-of-way we have been directed to strictly enforce this Ordinance township-wide. As a result we have issued hundreds of these Notices. Bottom line is that nothing can be placed in the ROW (depending upon zoning usually 10' from the street) without permission from the Township Council which request must be in writing and submitted through the Township Clerk.
